

MAKE DEMAND FOR SURRENDER

THREATEN TO DRAG SULTAN FROM THRONE

It Is Estimated That 25,000 Unbelievers Slain in Horrible Butcherings. Scenes of Terror Depicted

(By Bysantius Moschopoulos, Staff Correspondent United Press.)

CONSTANTINOPLE, April 23.—The besieging generals today sent a formal demand for the surrender of the palace guards, comprising six thousand men, threatening, in case of refusal, to storm the palace, and drag the Sultan from the throne.

This action followed a long conference last night between the leaders of parliament and the generals of the invading army, at which it was decided that Sultan Abdul Hamid must be dethroned. The Sultan's brother, Reschid Effendi, has been chosen as the new ruler. The surrender of the Yildiz palace is expected momentarily this afternoon. Cheftak Pasha, commander of the Third Army Corps, will be dictator, temporarily, if the plans of the Young Turks are fulfilled.

Cheftak has arrived, and has ordered that no excesses be committed when the army enters the city. It was expected all day that the soldiers would enter, and the residents made every preparation for such an emergency.

TROOPS ARE RUSHING TO RESCUE OF WOMEN

SMYRNA, April 23.—Troops are rushing to the rescue of the American women and missionaries at Hadjin today. It is doubtful if they will be found alive.

A small force of British troops have left the warships at Mersina and have started overland on forced marches. They have to go a hundred miles to reach Hadjin. A thousand Young Turks landed from the vessels last night and started inland with orders to stop the massacres. Their number is believed to be inadequate and it is probable they will be divided and set upon by the hordes of rioters.

The horrors are increasing and it is probable that twenty-five thousand Armenians, Christians and other foreigners have been slain. Reports reaching this city tell of horrible butchering and mutilation of the dead. The Moslems are continuing their policy of leaving no unbeliever alive.

One of the reports tells of Moslems at Kirikan placing the heads of men, women and children on pikes and

swords as they marched from the smoking ruins of the city.

VICTIMS BEGGING TO BE KILLED ARE LEFT TO DIE SLOWLY

MERSINA, April 23.—The local authorities of Mersina, Adana, Borejik and other cities where there have been massacres are directly responsible for the recent outrages, according to the official reports of returning naval officers.

In this town the authorities favored the massacres, and encouraged them while pretending to discourage them. Hordes of Mohammedans were armed by the authorities, under the pretense that they were needed to restore order. The Armenians who resisted forty hours, were overpowered and slaughtered.

No medical attention is being given the victims by the town authorities, but wounded Armenians, begging to be killed, are left to die slowly.

ARMENIAN COLONY IS INDIGNANT OVER REPORT

LOS ANGELES, April 23.—The local Armenian colony is indignant over dispatches of yesterday which stated that five American women were endangered by Armenian fanatics at Hadjin. They declare that the Armenians are Christians and without exception are not persecutors. They believe the Turks substituted the name Armenian in censoring the dispatches.

FOREIGNERS IN DANGER OF BEING MASSACRED

WASHINGTON, April 23.—Foreigners in the vicinity of Tabriz are in danger of massacre, according to dispatches sent the state department by Minister Jackson at Teheran, Persia. Inflammatory speeches are being made against foreigners. SULTAN'S SONS MAY HAVE BEEN CAPTURED

GENEVA, Switzerland, April 23.—The Young Turks' commission here received a report from Stamboul this afternoon that two of the Sultan's sons have been captured by the Young Turks, that artillery has been trained on the Sultan's yacht, and its sailors warned that an attempt to move will result in its sinking.

MILLIONS OF BUSHEL DUMPED IN

Prices Break and Fortunes Are Swept Away in Few Minutes

MEN HOWL AND FIGHT LIKE MAD

Patten Cursed and Sworn at by Mob Struggling in Pit as Wheat Drops

CHICAGO, April 23.—Thirty million bushels of wheat, at a low estimate, were dumped into the pit on the Chicago Board of Trade within the space of a few hours yesterday.

Prices of wheat broke with almost incredible rapidity. Fortunes were swept away in minutes.

The pit was a howling, fighting mass of men who looked for and acted as if they suddenly had been bereft of all reason.

Patten was excoriated, sworn at, cursed by that fighting mob.

Thursday, April 22, 1909, will go down in the history of the Chicago Board of Trade as a red letter day.

Wheat for the May delivery broke from \$1.24 at the opening of the day's trading to \$1.20 at the close.

Wheat for the July delivery broke from \$1.13 at the opening to \$1.09 at the close.

Wheat for the September delivery broke from \$1.05 at the opening to \$1.01 at the close.

SEVEN FIELD DEPUTIES TO GET \$130

Judge Densmore Decided Salary Bill Provision as Affecting Them is Legal

GOES INTO EFFECT IMMEDIATELY

Decision Decides Nothing as to the Other Salaries and County Deputies

The field deputies of the county assessor's office get a raise from \$100 per month to \$130. This was the decision of Judge Densmore of Riverside this afternoon in the mandamus proceedings brought to determine whether or not the raise was legal.

The petitioner was John Kallenberger, Jr., representing the seven field deputies. The point decided does not decide whether or not all the changes proposed by the new salary bill may go into effect immediately. The judge ruled that it is an established fact that the salaries of deputies may be raised. There is a distinction between raising the salary of a deputy already established and the establishing of a new deputyship. The legality of other raises made by the new salary bill is still to be determined.

The field deputies serve four months in the year. The assessor has found it impossible to keep experienced men at \$100.

Calhoun's Attorney Wants Details of Offers Made Gallagher by Prosecution

SAN FRANCISCO, April 23.—The apparent object of the defense in the trial of Patrick Calhoun, president of the United Railroads, charged with offering a bribe, today was to obtain from James L. Gallagher, former boodling supervisor, a complete history of the immunity contract offered him by the graft prosecution. The defense's attorney, Moore, questioned Gallagher closely regarding his receiving of an immunity contract. It was evident the defense will attempt to show that Gallagher sought immunity and is now testifying in an attempt to earn immunity.

OPEN TO VIEW OF PASSERSBY

Huntington Beach Passes Pool-room Ordinance Requiring Glass Fronts

Huntington Beach News: A very close vote on the poolroom ordinance which was passed by the city trustees Monday evening lent interest to the proceedings of that body. The ordinance was proposed by Trustee Warner who championed it at the meeting and was supported by Trustees Helme and Howard. Trustee Stewart was the spokesman of the opposition to the measure and he presented his views in unmistakable terms. He stated that in his opinion there was too much business to be transacted by the trustees to "waste time" in the enactment

of ordinances which would probably be declared unconstitutional if tested in the courts and that as no complaint has yet been made concerning the local pool rooms since the enactment of the license ordinance, no further action was at present necessary. He insisted that so much of the proposed ordinance as referred to pool rooms being forced to provide glass front doors so that the tables should be exposed to the view of passers-by is unnecessary. Trustee Warner listened to Mr. Stewart but made no reply, merely moving the adoption of his ordinance. The vote stood three to two in its favor and it was passed. Trustees Warner, Howard and Helme voted "yes" and Trustees Stewart and Manning voted "no."

Ira Chandler and Mrs. H. Peterson and Child Narrowly Escape Death

FULLERTON, April 22.—Ira Chandler, a pioneer resident of Santa Ana, and Mrs. H. Peterson and her little child, had a narrow escape from death under the wheels of an engine this afternoon. Just as they were crossing the track on Spadra street in an auto, a southbound train was running into the station. Mr. Chandler did not see the train until it was almost upon the auto.

He turned the machine in an endeavor to turn off to one side, but the train struck the auto, partly demolishing it. Mrs. Peterson, with her child in her arms, jumped from the machine a second before it was struck. Mr. Chandler remained with the wheel until he was thrown out.

When the engineer saw the auto he applied his brakes and the train was stopped within a short distance. The occupants were not injured. Mr. Chandler returned to his home this evening with a friend.

LIVELY NEWS STORIES FROM THE CAPITAL OF THE NATION

Graphic Touches on Doings of Those Who are Among the Real "Who's Who"

WASHINGTON, April 22—President Taft has ordered the return of the Constitution to the Executive office.

When he took charge of the nation's affairs there was no copy of the historic document at hand. From noon on Thursday, March 4, until night, all day Friday, and all day Saturday, until after 4 p. m., the affairs of the administration were conducted without the assistance, the guidance, or even the presence of the sacred instrument. At 4:15 the president happened to want the constitution to look up the subject of Inauguration day. It could not be found either on the presidential desk or in the presidential bookcase. Ex-Secretary Loeb, who happened to be in the president's office at the time the sudden search was instituted, hustled out into his old room and was gone a long time.

"They didn't need the constitution here under the last administration, Mr. President," remarked one of President Taft's visitors. The president laughed heartily and checked a remark that came to his lips.

"I've got it, Mr. President," cried Loeb, rushing breathless into the room. "You see I knew where it was to be found. I had it in my keeping, for I had to use it if others didn't."

Taking the sacred document in his hand, the president held it aloft and announced that it should never, never leave the room again.

It now reposes in a drawer in the presidential desk within easy reach.

Captain Seth Bullock, the old cow-

boy friend of Roosevelt, is to be taken care of by President Taft and will be reappointed United States Marshal of South Dakota at the expiration of his present term. President Taft made this definite promise to Representative Martin, of South Dakota, and told the latter that he would "appoint Seth not only because he is a close friend of my predecessor, but because I have a warm regard for him myself."

"Seth called at the White House the day after Inauguration and was greeted like an old chum by the new president," said Representative Martin. "He told Seth that he wanted him to know that he would always be welcome at the White House."

Roosevelt and Bullock "rode the range" together on the Little Missouri back in the '80's and struck up a friendship then that has endured with the years. Bullock was the first sheriff of Deadwood, and personally attended to the cleaning up of probably the worst bunch of bad men that ever pestered a new community. It is said that he has five or six notches on the barrel of his Colt's, but it cannot be proven by him, for he is the most modest of men.

When Roosevelt made his western campaign trip for the vice-presidency in 1896, Seth went with him through the mining districts. Trouble was promised at Butte, among other places, and before the meeting at the Montana metropolis, Seth wandered into the hall where the tough element had gathered with the intention of "rough-housing Teddy."

"I would like to announce before this meeting is called to order," cried Seth, mounting the stage and leisurely pulling out two huge revolvers which he laid upon the speaker's table, "that Colonel Roosevelt is going to address you in a few minutes. I also wish to announce that the first man that starts anything gets a bullet through his head."

"It was a very orderly meeting," said Col. Roosevelt, describing the incident afterwards. "I was never listened to with more attention in my life."

Now that James Rudolph Garfield is out of office, there is considerable speculation as to his future part in politics. He denies the rumors that he is to be given a place on the federal bench, in Ohio or elsewhere, and says that he is going back home to practice law.

There is genuine regret among the friends of the Interior. He is credited with a better understanding of western conditions than any other man who ever held the position.

The business of the department under Garfield undoubtedly was better administered than it has been under any former secretary. One of the greatest reforms he instituted was the classification of coal and other mineral lands. The law provides that the lands shall be sold at a minimum price of \$10 an acre when more than 15 miles away from a completed railroad and for a minimum of \$20 an acre when less than 15 miles away. The custom had been to sell these lands always for the minimum price, and many corporations secured the lands and built the railroads afterwards from the profits. Garfield had the Geological Survey classify the lands as to the value of the deposits and they were sold thereafter on a business basis.

He also cleaned out the land agents who had been corrupted by corporate interests and organized an efficient land office force. He succeeded in getting through Congress more and better legislation affecting the territories, especially Hawaii and Alaska, than any of his predecessors.

At this last session of Congress, Garfield secured an appropriation giving the land office a million dollars to spend to prevent frauds. In addition he got through a law separating the surface from the sub-surface in dealing with public lands, so that a homesteader who had unwittingly settled over a vein of coal as agricultural land could not be ousted without payment of damages.

It is expected that Richard A. Ballinger, the new Secretary of the Interior, will carry out the same policies, although he is as different from Garfield in temperament and methods as Taft is from Roosevelt.

"I have seen President Taft in nearly every walk of life and wanted to look in on him at his desk in the White House," said Rev. John Wesley Hill, of New York.

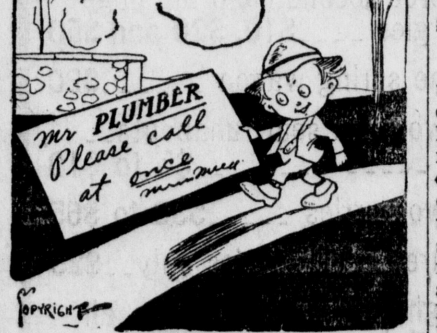

"When I got into his office," continued Dr. Hill, "I told him that I was reminded of the old negro preacher who set out to tell his congregation that they would 'now visit the holy city of Jerusalem and see her bulwarks,' but said instead, that they would visit the city and 'see how the bull works.'"

"Well," said the president, with a laugh, "you see him working now."

Dr. Hill was one of the spell binders who accompanied Mr. Taft during his campaign in the West.

Surprising, What Kodol Will Do

For you, when you need it. But the longer you neglect indigestion, the more you will suffer before Kodol can restore Good Digestion.

And, of course, indigestion if neglected long enough, brings on serious diseases in which Kodol cannot benefit you. Some of these there is no help for at all.

There are, in fact, very few ailments which cannot be traced directly to impure blood. And impure blood is always due to a disordered stomach.

Use Kodol and prevent Nervous Dyspepsia.

Kodol will effectually assist Nature to secure a complete restoration of good digestion. It does this by at once digesting all food in the stomach and keeping it digested, until the stomach is rested and can resume its own work. Kodol removes the cause—and the effect quickly removes itself.

When it is recalled that Apoplexy, Heart Disease, Cancer—and even Consumption—are due to poor digestion and poisons thus transmitted to the blood, and throughout the system—the importance of maintaining good digestion is at once realized.

We knew what Kodol would do before ever the first bottle was sold. If we did not know just what it will do, we would not guarantee it the way we do.

It is easy for you to prove Kodol—the next (or the first) time you have an attack of indigestion. And you will certainly be surprised at the results. It is perfectly harmless.

There can be no harm in trying something that may do you a great deal of good—when it costs you nothing if it doesn't.

Our Guarantee

Go to your druggist today and get a dollar bottle. Then after you have used the entire contents of the bottle if you can honestly say, that it has not done you any good, return the bottle to the druggist and he will refund your money without question or delay. We will then pay the druggist for the bottle. Don't hesitate, all druggists know that our guarantee is good. This offer applies to the large bottle only and to but one in a family. The large bottle contains 8 1/2 times as much as the fifty-cent bottle.

Kodol is prepared at the laboratories of E. C. DeWitt & Co., Chicago.

You will be satisfied if you call on us for your lumber, shingles, lath, posts, doors, windows, glass, cement and asphalt roofing.

THE BALLOT THE ONLY REMEDY

The special grand jury summoned at the request of the district attorney to make further inquiry concerning graft-protection in Los Angeles, has finally completed its labors, filed its report and adjourned, after finding two indictments. One of these indictments is against a minor official, and the other against a private citizen.

There is one feature of the report filed that makes the prosecution of graft look very dubious AND EMPHASIZES THE IMPORTANCE OF THE BALLOT AS A REMEDY FOR CIVIC AND POLITICAL CORRUPTION. The jury is unanimously of the opinion that many officials and ex-officials in the Angel City are guilty under the law, and should be punished, but laments the lack of LEGAL EVIDENCE necessary to secure convictions. In the opinion of the grand jury then, a long continued course of corruption can be run by public officials, as well as private parties, and still with all the detective force at work on such cases for months, there can be found practically no evidence sufficient to convict the grafters. This is a gloomy picture and it were well for the good of the people of this county to pause and contemplate it long and well.

As no one will question either the intelligence or good faith of the grand jury, its description of conditions heretofore existing among the Los Angeles officials will be accepted. It makes a case of corruption so general as to render itself immune from prosecution—the law and the lawless joining hands against the law-abiding. Officers are supposed to be chosen for the protection of society, but instead they reverse this and protect its enemies, getting pay from both sides. Instead of using the machinery of government for the detection and punishment of crime, they employ it for the protection of criminals, and when themselves detected, have it all so fixed that they are safe from prosecution.

This looks like it needed fixing, and the first question that arises is how did it come about? OF COURSE IT CAME ABOUT THROUGH CORRUPT POLITICS, just as it did in San Francisco, with the hand of the liquor traffic guiding at every turn. But it could not be accomplished except WITH THE SANCTION OF THE VOTERS, and there is where the real trouble lies.

As long as the elective franchise is at the beck and call of "machine" politicians, you may expect such things to happen, but when the people come to the point where they decline to be led as lambs to the slaughter, it will stop.

REASONS FOR ELLIOT'S REFUSAL

The failure of President Taft to induce Dr. Elliott to represent this government at the Court of St. James will, on account of the reasons given for declining the offer, occasion not a little comment on both sides of the Atlantic. The motive for the noted educator not accepting is that he has not sufficient means with which to sustain himself in the social position that goes with the place. This will be a revelation to many on this side at least, and the natural inquiry will be as to what is required of our representatives abroad, and whether or not they must lay aside their democratic principles when they enter the diplomatic service. If they do not, the inference is that our government would be discredited.

Many things will be thought even if not said on the subject, and the shallowness and artificiality of what is considered as polite society will come in for its full share of criticism. It will be pointed out that it stands in the way of properly administering one of the most essential functions of our government by barring the best men, in fact any but the rich, from representing us at the English capital. Perhaps it will be ironically suggested as a solution of the difficulty that some American millionaire be chosen to the place, and that Dr. Elliott act as his private secretary, by which arrangement both the money and brains would be available, one to satisfy the requirements of English society, and the other to serve the interests of the American government.

But it is not so certain after all that our English cousins are so much at fault in the matter as the millionaire American colony in London, who set the pace our Ambassadors have to keep up. But be that as it may, in spite of all our pretensions, we are not, as a people, either in our form of government or social relations, the most democratic in the world. No crowned head of Europe has the power of our president, and as for King Edward, he would endanger his crown if he should veto an act of parliament. As to their nobility, they are not in it with ours, and their "smart set" can be "showed" a thing or two even by our "newly rich."

In this country "society" is divided into innumerable "sets," grading up or down, according to the point of view, from the day laborer to the billionaire, each on a strain to get into the most "exclusive." A man who works on a salary or for day wages, puts in from one-half to three-fourths of his labor earning money to keep up with the demands of this same weak and foolish fad for show that defeats President Taft in his efforts to get the best man for Ambassador to England. Let us be honest and admit that we are all afflicted with the same species of imbecility.

H. L. GARRETSON WAS NAME OF MAN WHO KILLED SELF

Formerly Secretary of a Railroad President—Body Goes to Oakland

The name of the man who committed suicide at Balboa on Tuesday night by taking gas was H. L. Garretson. He was a railroad man and his home was with his mother, Mrs. S. W. Hopkins, at 1217 West Seventh street, Los Angeles. The man was mentally unbalanced when he left home, and was being searched for when she learned that the body was here.

Until three years ago Garretson was a good business man, and at one time was private secretary of a railroad president, whose name the coroner's informant could not give. Three years ago Garretson had a nervous break-down and since then has not been able to work. For some time he has considered himself as a burden to his relatives, and six weeks ago he attempted suicide in Los Angeles by the use of chloroform. He has a wife and son in Oakland. The body will be shipped to Oakland this afternoon by Coroner Smith. Garretson was 39 years of age.

HAD A BAD FALL INTO BASEMENT

H. R. Bristol had a bad fall into the basement of the Rowley Drug Co. yesterday afternoon. A trap door near the entrance behind the prescription case was loose, and Mr. Bristol fell through. He received a severe blow on the right side. No ribs were broken, but the bruise and strain on the muscles resulted in a painful injury. A few days ago Dr. Boyd had a fall through the same trap door, getting off with a few bruises and lacerations. The drug store has decided to do away with the trap door.

Music by the Schumann Quartet and a number of piano selections by Mrs. Fred Chapman, with solos by Mrs. Charles Johnson, Mrs. Floyd McClay and Averae Hall, made up a delightful impromptu musical program, greatly enjoyed by the guests.

Refreshments were served in three courses at small tables. A big wedding cake made by the Dragon, with one candle in the center, was cut by the bride of a year.

The parlors were decorated in red poppies, while a profusion of beautiful apple blossoms were in the dining room.

After a few hours of conversation over fancy work, all adjourned to the dining room, where they were seated at the table. The center piece was a large mound of assorted fruits of the season. Dainty refreshments of ice cream, cake and assorted fruits were served.

WATER DECISION HAS NO GREAT BEARING ON LOWER IRRIGATORS

In regard to the Supreme court decision in the case of Barton against the Riverside Water Co., Attorney Keech said today:

"The decision has no great bearing upon the two water companies of this county. The decision was more concerning evidence than concerning points of law. It decides that the Riverside people have a right to take water out of the San Bernardino basin as against irrigators above them. It decides nothing as against water users below them. It is a great decision for the Riverside people. It helps us in that we would rather that the Riverside people pump as far up as possible rather than come down closer to us to do it."

The Riverside Enterprise says of the decision:

What the Decision Means

That the affirmation of Judge Bennett's judgment is a boon to Riverside and vicinity is easy to comprehend when it is brought to mind that if the plaintiff had been allowed the relief demanded the water companies doing business in Riverside would have been almost without a source of supply. Realizing that the forthcoming decision was of the utmost importance to the city, the people of

Riverside watched with intense interest for the opinion of the higher court. It is even claimed that the value of Riverside property rested to a certain extent upon the result of the litigation.

When seen by an Enterprise reporter last evening, Attorney Carnahan was quite jubilant over the court's decision and the citizens of Riverside generally expressed their approval of the outcome in this famous case.

Resume of the Case

This case has been one of the most famous water suits ever fought out in Southern California courts and the people of this entire part of the state became interested in the legal battle.

As is well known, the city of Riverside is supplied with water drawn and converted from the artesian wells and the Santa Ana river in San Bernardino county. The suit was commenced March 15, 1906, by John H. Barton and twenty-six other landholders of that county, asking that the Riverside Water company, the Riverside Highland Water company and the West Riverside 350-Inch Water Company be enjoined from further drawing off, diverting or converting any water in any manner from the San Bernardino artesian basin. A similar suit, although in some particulars different from the Barton suit, had been won by Plaintiff Katz against Defendant Walker and the decision was upheld by the supreme court, which case is said to have had a great deal to do with the bringing of the suit against the Riverside water companies.

The hearing of the case of Barton

Making Good.

There is no way of making lasting friends like "Making Good," and Doctor Pierce's medicines well exemplify this, and their friends, after more than two decades of popularity, are numbered by the hundreds of thousands. They have "made good" and they have not made drunkards.

A good, honest, square-deal medicine of known composition is Dr. Pierce's Golden Medical Discovery. It still enjoys an immense sale, while most of the preparations that have come into prominence in the earlier period of its popularity have "gone by the board" and are never more heard of. There must be some reason for this long-time popularity and that is to be found in its superior merits. When once given a fair trial for weak stomach, or for liver and blood affections, its superior curative qualities are soon manifest; hence it has survived and grown in popular favor, while scores of less meritorious articles have suddenly flashed into favor for a brief period and then been as soon forgotten.

For a torpid liver with its attendant indigestion, dyspepsia, headache, perhaps dizziness, foul breath, nasty coated tongue, with bitter taste, loss of appetite, with distress after eating, nervousness and debility, nothing is so good as Dr. Pierce's Golden Medical Discovery. It's an honest, square-deal medicine with all its ingredients printed on bottle-wrapper—no secret, no hocus-pocus humbug, therefore don't accept a substitute that the dealer may possibly make a little bigger profit. Insist on your right to have what you call for.

Don't buy Dr. Pierce's Favorite Prescription expecting it to prove a "cure-all." It is only advised for woman's special ailments. It makes weak women strong and sick women well. Less advertised than some preparations sold for like purposes, its sterling curative virtues still maintain its position in the front ranks, where it stood over two decades ago. As an invigorating tonic and strengthening nerve medicine it is unequalled. It won't satisfy those who want "boozie," for there is not a drop of alcohol in it.

Dr. Pierce's Pleasant Pellets, the original Little Liver Pills, although the first pill of their kind in the market, still lead, and when once tried are ever afterward in favor. Easy to take as candy—one to three a dose. Much imitated but never equaled.

et al. vs. the Riverside Water Company, et al., required two months in the superior court at San Bernardino and at the conclusion of the plaintiff's testimony the court held that the plaintiff had not made out a case for relief and rendered judgment of nonsuit. The appeal followed.

Effects Another Suit

The suit of Parish vs. the Riverside Trust Co., the Gage Canal Co., and the East Riverside Water Co. is an identical case. After action was commenced demurrers were heard and the decision from the supreme court in the Barton case awaited. It is thought that the decision may have the effect of dismissal in the Parish suit, but the grounds upon which the supreme court affirmed Judge Bennett's decision will have some bearing upon the matter. It is known that yesterday's decision was rendered en banc.

Array of Legal Talent

Experts in the legal craft were employed in the Barton-Riverside case. Representing the plaintiffs were Judge Horace C. Rolfe, Byron Waters and C. C. Haskill, all of San Bernardino, Houghton and Houghton, of San Francisco; Judge John S. Chapman of Los Angeles, and Curtis and Curtis of San Bernardino for the Riverside Water Co.; Collier and Carnahan and H. C. Hibbard of Riverside for the West Riverside 350-Inch water company; and Judge Henry Goodsell of San Bernardino and Chas. R. Gray of Riverside for the Riverside Highland Water company.

PREPARATIONS MADE TO RECEIVE VISITING ELKS

SANTA MONICA, April 23.—Preparations are being made to receive thousands of members of the visiting Elks on Santa Monica bay day, July 13. The visitors will be taken around the bay in automobiles and carriages and will visit every point of interest accessible by electric road in special cars.

A monster series of tables will extend along the entire ocean front from North Beach in this city to the Windward pier at Venice. These tables will be loaded with dainties from clam bakes and barbecues cooked on the beach and supplemented with good things furnished by the housewives of the beach. It is planned to have each section of tables under the charge of delegations from the various fraternal and state organizations.

In the afternoon there will be a swimming contest for the championship of Southern California, boat races from Ocean Park pier, grand baseball match at Venice park and a grand automobile contest over a fifteen mile course, the finest in the southern part of the state. This last feature will be of unusual interest.

There will be boating on the canals, fishing from the three piers, dancing, bowling, etc.

The Gregory Royal Italian Band will give a number of grand concerts. The day's festivities will wind up with a grand ball to be given at the Horseshoe pier auditorium.

ORANGE

OLIVE MILLING CO. MAKING IMPROVEMENTS

Orange Post: The Olive Milling Company has been making some valuable improvements in its plant lately. The steam engine, which was used to supplement the water power consisted of a good 120 h. p. engine and an inferior 60 h. p. boiler, bought of the S. A. V. I. Co. several years ago. Now the old boiler has been discarded and one of Mason's Improved boilers of 100 h. p. capacity substituted. This kind of boiler produces a drier steam with more expansive power and less moisture to condense and get rid of. An indestructible furnace of approved pattern and suitable for the consumption of a cheaper grade of oil has also been provided. The whole outlay for these improvements will be about \$1700; and it is money well spent, for besides getting rid of the danger of the old boiler's exploding the cost of operating the plant will be greatly reduced.

Messrs. Richens, Fletcher and Richens and their wives, who recently arrived here from Grand Rapids, Mich., are enthusiastic over the country, and hope to get many of their friends here next year.

A number of local people are going up to see Miss Ora Gardner in "The Dollar Mark," now playing at the Belasco in Los Angeles. Miss Gardner is well known in Orange, where she spent her girlhood days.

R. W. Jones is entertaining for a few days Mr. Stone of Santa Barbara, formerly a resident of the foothills section.

ARIZONA LEGISLATIVE SCANDAL TO BE PROBED

PHOENIX, April 23.—The hearing before the local grand jury of charges of a scandal in the recent legislature, were postponed until today, when M. Keen St. Charles, of Kingman, Will Morgan, Fred Sutter, legislators, could be present to testify. It is alleged that bribes were offered in connection with the Pace local option bill. With St. Charles came his wife, who though not subpoenaed, will be a valuable witness to the anti-saloon league, which brought up the matter.

THEY NEVER FAIL

That is What They Say About Them in Santa Ana, and It Is Therefore Reliable

—Another proof, more evidence, Santa Ana testimony to swell the long list of local people who endorse the old Quaker remedy, Doan's Kidney Pills. Read this convincing endorsement of that remarkable preparation:

O. H. Dunkin, of 824 North Birch St., Santa Ana, Cal., says: "Whenever I have any trouble with my kidneys Doan's Kidney Pills are the remedy I resort to and from the time I first used them some eight years ago, they have never failed to give relief as they did at that time. Kidney complaint in my case is made manifest by pains across my loins, too frequent action of the kidney secretions and a scalding sensation accompanying the passages. Straining the back cannot well be avoided at times by those who follow my occupation and as a result, backache and other disturbances of the kidneys are quite certain to ensue. For these difficulties I most heartily recommend Doan's Kidney Pills which can be procured at Tubbs & Co.'s drug store, and feel from my experience with them, that I am well justified in doing so. It is over a year or more since I have had occasion to use them so it may be seen that the results I obtain are not of mere transitory kind, but lasting."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

What "MARION HARLAND" thinks of "Nature's Gift from the Sunny South"

New York, December 15, 1906

The N. K. Fairbank Company,

Dear Sirs:

Many years ago I discontinued the use of lard in my kitchen and substituted for it -- as an experiment -- COTTOLENE, then comparatively a new product.

Since my first trial of it I can truly say that it has given complete satisfaction, whether it is used alone, as "shortening", or in combination with butter in pastry, biscuits, etc., or in frying; it has never disappointed me.

I wish it were in my power to install this pure vegetable product in the esteem of my fellow housewives in place of the gross, and often diseased, animal fats

I rarely recommend any proprietary article in print, however good I may think it, but after many years use has proved to my household and myself the excellence of COTTOLENE, I feel justified in departing from the self-imposed rule. I honestly believe it to be the very best thing of its kind ever offered to the American housekeeper, and I am glad of the opportunity to make my conviction public.

Yours truly,

Marion Harland

NOTE—"MARION HARLAND" is well known as one of the foremost cooking experts in the United States. She is the author of the famous "Marion Harland Cook Book," and her articles on culinary subjects are widely read and highly prized. Her high standing and long experience with COTTOLENE make this endorsement particularly strong and convincing, and it is doubly gratifying because of the fact that it came entirely unsolicited.

A Motor on Trial

One of the beauties about individual electric motor drive is this: You don't have to start out with a lot of expensive equipment and run the risk of getting "stung." You can try a single motor at little expense and no inconvenience.

Study it, watch it work, tabulate results. From it you can learn just what a complete installation of motors will mean.

Most people who start with one motor end with a complete electrical equipment, and become enthusiastic converts to electric power. If they find it profitable to use individual motor drive, mightn't you? Why not install a single motor and form your own opinion?

ANGELES PRODUCE MARKET
Potatoes of every variety advanced yesterday morning. This has been long expected in a number of the different kinds on account of the higher prices prevailing throughout this and other producing states. The last Highlands to job below \$2 a hundred were traded early in the morning. Later this variety advanced to a selling price ranging from \$2.25 to \$2.45 a hundred. Idaho potatoes, next to Highlands most plentiful and not as good as the spuds which are shipped in from Oregon, are bringing the same as the Highlands. Lumpers and Oregonians advanced to a very high price, the former going up to \$2.75 and the latter selling at a top quotation of \$2.60. The local potatoes which have been coming in regularly from nearby fields also went up and the first Burbanks are selling at \$2.25 a hundred. The Early Rose tubers, and those from Utah, Colorado and Nevada have practically been cleaned up and are no more obtainable in wholesale quantities. Arrivals of spuds in three weeks past have been exceedingly light and this has given dealers an opportunity to sell off their surplus. With the higher prices prevailing shipments will increase again. Only 2 cars were reported in yesterday.

Egg receipts were 833 cases. The price on them advanced 1 cent in case count, candied and extra selects. This is asserted by a number of dealers to be uncalled for. It is stated that the market is kept going up in order to allow the sale of the eastern eggs which are arriving at present and which must have a fair margin to sell in. In San Francisco the best eggs on the market are selling at 24 cents, while here the price is 4 cents higher.

Butter receipts were 27,172 pounds. Cooking butter sold better than the best grades. There were no changes in prices. Cheese was not as active as for several days past. Receipts of the commodity were only 630 pounds, mostly northern fresh, which was the best seller.

Onions were slow in sale. A car of Texas Bermudas arrived late yesterday afternoon and were offered on the street considerably below the present selling price. Beans were quiet and pinks were the best offering. Lentils were in good demand and a number of California lentils were traded.

Egg plant shipped here from the southern portion of Florida, went down from 35 to 25 cents a pound on account of the heavy receipts. Northern artichokes were scarce, the reason for them being about over in the central part of the state. Locals were plentiful and sold from 30 to 50

cents a dozen. Asparagus from all parts of the state was received and sold at the current prices. There was some underselling of these by one or two dealers who had a surplus.

A loud complaint was started in the morning by some of the big berry dealers, that the Japanese growers are again resorting to unfair means of profit. The ordinary strawberry box is expected to carry 4 of a pound. In the last few days many of the Japs have begun using 1/2 pound baskets without saying anything of it and selling the berries at the same price. It is intended to place the matter before the city sealer of weights unless the Japs go back to the use of the standard boxes.

Pineapples are very scarce. Shipments have been few in the past week, and as a result, the market has advanced to 10 cents a pound. Bananas also went up, the cheapest fruit of that variety selling at 4 cents a pound.

JURY AWARDS \$50 DAMAGES

Embankment Across a Natural
Draw is Declared a
Nuisance

Verdict Reached in Action in
Which Orangethorpe Ranch-
ers Were Concerned

The jury in the case of H. J. Schulte against F. Morris Smith, Hannah Seegar and Lauretta H. Baman, an action brought on the claim that a cement ditch across a small wash formed a dam that caused water to back up on three acres of Schulte's land, yesterday evening brought in judgment for \$50 damages against the defendants and declared the embankment to be a public and private nuisance.

The litigants live at Orangethorpe. Some years ago the cement ditch was constructed. In crossing the wash an embankment one to four feet high was made. During long wet spells the water could not follow its natural course down the wash, and made the road impassable and flooded the Schulte barnyard and adjoining land.

Schulte asked for \$500 damages and for relief. The findings of the jury carry the order for relief. Either culverts will be built under the cement ditch or the ditch will be piped.

Head & Marks were attorneys for the plaintiff and Williams & Rutan for the defendants.

CLEAN-UP DAY

Saturday, April 24th, has been set apart by the Civic Improvement Association as Clean-up Day for Santa Ana. Let every man, woman and child get out with a hoe and a shovel and make war upon weeds and rubbish. If we all pull together in all parts of the city we can make a splendid showing in the way of cleaning up the curbs and weedy places that are very unsightly. Let every citizen of Santa Ana give this good work a lift.

BALM MAN IS UNDER ARREST

A. B. Verity is Charged With
Selling Drugs Without Hav-
ing State License

The Keystone Balm man is in trouble up to his chin. He is even in the custody of the sheriff NOW!

No more is his megaphone cry of "Get your money back, now," heard on the streets, not for the present, at least.

The Keystone Balm man has been arrested charged with selling drugs without having first procured a state license so to do.

The Keystone Balm man's name is A. B. Verity. He owns two lots on South Main street. For a week or two he has been making himself a nuisance on the streets. He has a wagon fitted up with signs telling people he has Keystone Balm and if they are not satisfied they can get their money back—now. The burden of his song has been of that nature likewise, forever and always the same. At first he used his voice only. Then he got a megaphone.

But little of the all-cure stuff was sold.

Yesterday evening City Marshal Edwards managed to buy a bottle of Keystone Balm. He paid \$1.50 for it. The label showed the balm to be 80 per cent alcohol, two per cent ether and eighteen per cent chloroform. Edwards swore to a complaint charging the man with selling drugs without a state license.

Justice of the Peace Smithwick gave the man directions to be in court at 10 o'clock. Verity asked that he be allowed to come in even earlier, 9 o'clock. Nine o'clock passed and the Keystone Balm man did not show up. He was not there at 10. Some time after 11 o'clock he was brought in by Sheriff Lacy.

When the man did get before Justice of the Peace Smithwick, the justice found that he had a job on his hands. He told the man that he wanted him to answer guilty or not guilty to the charge. Verity went off on a ramble about a United States supreme court decision concerning licenses. The judge said he didn't care whether or not the United States supreme court ever heard of the drug license, all he wanted was that Verity plead guilty or not guilty.

"Please now—Now," said the judge. Verity answered by pulling from his pocket a piece of worn paper purporting to be a decision of some kind. He would have been telling the judge about that decision and its intimate relations to Keystone Balm yet had not the judge once more called on Verity to enter a plea. But Verity could not and would not talk about that matter of no consequence. He declared he had harmed no one, if they weren't satisfied they could get their money back, now.

Having doubts as to the man's sanity, the judge ordered his case continued to Monday. He advised Verity to get a lawyer who would know the difference between the plea of guilty and the plea of not guilty. Verity has not given bond, and Sheriff Lacy has him in jail, where he may be heard to say, from habit: "Get your money back now. Keystone Balm—now."

Something New in a Measuring Spoon

We have something decidedly interesting—and new, in a measuring spoon for household use. It is rather a combination of three spoons, one measures 1/4 of a teaspoonful, one 1/2 teaspoonful, and the largest one measures a teaspoonful. They are useful not only in measuring medicine that is to be taken but of more constant use in the kitchen where small accurate measurement is so often desired and—guessed at. It don't pay to guess when you can buy this spoon for **10c**

Choice of Scissors and Shears 4 to 8 inch

We have an assortment of nickel plated shears and scissors that we want to close out. They vary in length from four to eight inches—some are button-hole scissors, some are bent trimming shears of varying lengths, some are plain household scissors of seemingly very good quality. Some of these were priced by Tubbs at 50c and over, but as long as they last you can have your choice at **25c**

Immense Can of Good Talcum Powder

We have just received the largest size package of good Talcum powder that we were ever able to sell at 25 cents. Gray's Bismuth Talcum Powder is the name of it and it is true to its name, containing bismuth, magnesia, orris, boric acid and best Italian talc, it is purely a medicinal powder. Unequaled as a healing agent for baby's tender skin. Just as good for grown ups **25c**
